Our Vision, Our Mission

Who Are We?– The Alliance for Full Participation is a partnership of community leaders and champions, families, individuals, people in state government, and organizations serving people with developmental disabilities who share a common vision – to create strong, welcoming communities that honor the gifts of all community members.

Our Vision – That our communities and our state will realize the promise of integration, productivity, independence and real choices for enhancing the quality of life for all persons who have been marginalized.

Our Mission – To dream, plan, work, organize and mobilize people who can champion the cause of building welcoming and accessible communities to make the promise of integration, productivity, independence and quality of life a reality in policy and practice!

Would you like to help?

If you have experienced something here tonight that makes you think you have: an employment opportunity for a person with a disability; a mentoring opportunity; you want to volunteer for one of the organizations that support individuals with disabilities; or would like to make donation - contact PAL @785-2100 or CPNRI @ 295-5757 and we will help connect you!
