The Rhode Island Alliance for Full Participation

Welcomes You to

A Community Where We All Belong

Thanks to our generous sponsors for helping us make this event possible!

Our Vision, Our Mission

Who are we? The Alliance for Full Participation (AFP) is a partnership of leading organizations serving the developmental disabilities field that share a common vision— to help create a better and more fulfilling quality of life for people with developmental disabilities.

Our Vision: That people with developmental disabilities and their families realize the promise of integration, productivity, independence and real choices for enhancing their quality of life.

Our Mission: To dream, plan, work, organize and mobilize people with developmental disabilities, their families, and supporting communities and organizations to make the promise of integration, productivity, independence and quality of life a reality in policy and in practice.

Would you like to help?

If you have experienced something here tonight that makes you think you have: an employment opportunity for a person with a disability; a mentoring opportunity; you want to volunteer for one of the organizations that support individuals with disabilities; or would like to make donation- contact PAL @785-2100 or CPNRI @ 295-5757 and we will help connect you!
